

## ONE INDUSTRY. MANY CAREERS.

There are as many academic routes to Bermuda's global business market as there are career choices.

Skill sets needed by international companies range from the technical (finance, math, science, IT, engineering) to creative (literature, art & design, marketing).

Find your passion, and you'll find an #IB job to match.

# CURIOUS ABOUT A CAREER IN INTERNATIONAL BUSINESS?

## 1 FIND YOUR PASSION.

Choose subjects and activities you enjoy most, then consider careers that apply those interests.

## 2 GET GOOD GRADES.

Most scholarships require a B average, or a 3.0 GPA.

Keep a calendar for all important dates, including tests, homework, exams, and application deadlines.

Volunteering for charities and competing in sports and other activities not only make you feel great, but also look impressive on your resume.
